

Nanaimo Flying Club Aircraft Rental Group

Application and checklist/rules for overnight usage.

MAY– OCTOBER

A minimum of 3 hours per day is required (per night) for overnight usage of GVBA, for a maximum duration of 2 nights (with the exception of weather and mechanical issues).

You may book one overnight trip per each 10 hour block purchase.

The hours that you fly the aircraft count against the three hours. For example: if your overnight destination is only 0.8 hours away and you don't fly anymore that day you will owe the difference of 2.2 Hours .

Completion of this form is required prior to taking VBA overnight, failure to do so will result in being charged the 3 hours in ADDITION to the Journey Log recorded flight time.
